

SMART POWER IS AN ENERGY MANAGEMENT CONSULTANCY PROVIDING CUSTOMERS WITH INDEPENDENT SPECIALIST KNOWLEDGE OF THE ENERGY SECTOR.

WE PROVIDE A **TAILORED ENERGY MANAGEMENT** PACKAGE BASED ON YOUR NEEDS.

TOTAL ENERGY MANAGEMENT

SMART POWER

Since 1993 Smart Power has provided clients with the information and advice needed to ensure they are running their business as energy efficiently as possible.

Our ability to offer a one-stop shop service along with our independence sets us apart from our competitors. This means that the services and advice provided is in the best interests of you, our client.

We are able to add value to your business through:

- ⊗ Increasing energy efficiency
- ⊗ Reducing energy use
- ⊗ Improving administration processes

The services we provide range from hands-on energy management through to consultancy services, energy audits, tendering and negotiating energy supply contracts and utility bill verification.

Our energy management package is tailored to individual requirements allowing for the level of staff involvement you require to meet the desired outcomes.

The flexibility we provide allows you to access professional energy management advice in a cost effective manner while your own staff remain focussed on your core business.

OUR PEOPLE

The Smart Power team draws on wide and varied experience in the institutional, commercial, industrial and dairy energy sectors. This, in conjunction with the financial and engineering skills the team possess, is a key factor in the range of energy management services we offer.

OUR SERVICES

We're pleased to offer the following services:

- ⊗ Energy procurement
- ⊗ Risk assessment on partial hedge offers
- ⊗ Invoice verification and payment
- ⊗ Monitoring and targeting reporting
- ⊗ Line and transmission analysis services
- ⊗ Energy audits
- ⊗ Tenant billing
- ⊗ Technical solutions such as:
 - ~ Power factor analysis and reporting
 - ~ Power quality/harmonic distortion analysis
 - ~ Load profiling, logger rental
- ⊗ Total energy management
- ⊗ e-Smart online data information resources

OUR CLIENTS

Our clients are some of New Zealand and Australia's largest entities across the Government, telecommunications, finance, education, dairy, property and manufacturing sectors.
